

EDUCATION**Master of Science in Business Analytics**, Rady School of Management

06/2025

University of California, San Diego, CA

GPA: 3.5

- Relevant Courses: Collecting and Analyzing Large Data, Business Analytics Capstone, Big Data: Scalable Analytics

Bachelor of Art, Computer Science

12/2024

University of California, Santa Cruz, Santa Cruz, CA

EXPERIENCE**Research Assistant**, Rady School of Management, La Jolla, CA

10/2025 - Present

- Supported the design and execution of a randomized controlled trial (RCT) evaluating the efficacy of a digital self-regulation App (Gamban) aimed at reducing online gambling behavior
- Assisted with participant recruitment, survey administration, and data collection, managing enrollment and responses across multiple study phases to ensure statistical reliability
- Contributed to data analysis, research documentation, and open-science compliance, maintaining integrity with UC San Diego's ethical standards and institutional review protocols

Self-Employed Entrepreneur, Remote

11/2020 - 06/2021

- Sold over 200 PS5 consoles, generating over \$150k in revenue on platforms like Facebook Marketplace
- Managed end-to-end operations, including sourcing, inventory management, pricing, and sales
- Built strong customer relationships, securing positive reviews and repeat business, and negotiated inventory acquisitions to maximize profit margins

PROJECTS**Project Lead**, ETL and Python, University of California, San Diego

08/2025

- Built a data pipeline in Snowflake using SQL and Python to integrate purchase, invoice, supplier, and weather datasets, enabling comprehensive business analysis
- Performed transformations and queries to analyze invoice vs. purchase order discrepancies and assess external factors, improving data-driven decision-making

Project Contributor, Flappy Bird+, University of California, Santa Cruz

06/2024

- Initiated and developed an enhanced version of Flappy Bird with adjustable difficulty, implementing adaptive algorithms and analyzing player performance data to optimize engagement and retention
- Analyzed gameplay data (score thresholds, drop-off rates) to evaluate difficulty changes and identify ways to improve player retention

SPECIALIZED SKILLS

- **Languages/Coding:** Python, SQL, HTML, C/C++, Java, R
- **Tools:** Tableau, Git, VS Code, Jupiter Notebook, Snowflake, Ubuntu
- **Certifications:** Career Essentials in Data Analysis (Microsoft, 2025), Intermediate SQL for Data Scientists (LinkedIn, 2025), Learning AI for Business Analysis (LinkedIn, 2025)
